

Farming
Advice Service

Free and confidential advice for farmers and land managers

Farmers today encounter a range of challenges beyond everyday business management. Balancing profitability, animal welfare, staff well-being, customer expectations, and staying updated with policy changes and regulations can feel demanding. The Farming Advice Service is here to help you navigate these complexities.

Get advice to meet your regulatory requirements

Our national network of qualified, independent advisers can offer you free and confidential advice to help you understand and meet the legal requirements in English law around farming activities to protect people, livestock and the environment.

Support with the Sustainable Farming Incentive

You may not know if you or your land are eligible to apply for a Sustainable Farming Incentive (SFI) agreement, which options are right for you, or how to apply. The FAS team can support you in navigating guidance on the SFI scheme expanded offer, which includes the following options:

- Agroforestry
- Air quality
- Boundaries
- Crops
- Equipment and machinery
- Flood risk
- Forestry
- Hedgerows
- Historic environment
- Horticulture
- Integrated pest management
- Land features and archaeological features
- Livestock management

Catchment Sensitive Farming

The Farming Advice Service (FAS) has partnered with Catchment Sensitive Farming (CSF) to provide farmers with free, confidential advice and guidance in one place.

CSF offer advice and training to help farmers produce food in a way that protects their local water, air and soil. Local advisers can help you with:

- Soil management
- Nutrient, slurry and manure management
- Ammonia reduction
- Farm infrastructure and machinery setup
- Pesticide handling
- Water resources and natural flood management
- Land management
- Local environmental priorities
- Agricultural transition, including grants

Visit farmingadvice.service.org.uk/csf for more information, farm mapping tools, free training and events, and to request support from your own local CSF team.

Get help understanding what funding and support is available to you

Our advisors can offer you support to understand which grant schemes are available to you, including:

- Agri Transition
- Animal health and welfare pathway
- Countryside Stewardship
- Delinked payments
- Farming equipment and technology fund
- Landscape recovery
- Farming Resilience Fund
- Slurry infrastructure grant
- Woodland grants
- Other schemes and grants
